Follow the instructions from Mappy.com see the pdf file attached.

<H:\Montmin Mappy English.pdf>

When you come to the Col de la Forclaz continue down to the main "chef lieu" - village of Montmin. You will have the Church on your left.

Keep going straight and you will start to go down towards a small village called "La Perrier". You will have a sharp right hand bend and on this bend there is a dead end road that goes over a small bridge to your left towards "Plan Montmin". You will see a small pump house and the garbage bins where the road to the left is. Take this road and follow for 1.5km. When you come into the village of Plan Montmin go straight and the "Coutin" house is the third building on your left opposite a wash basin. Stop here as this is where the owners live. The house "Les Chanterelles" is 500m further down.
